

Dorr-Oliver® Sectors

Manufactured by Compositech

Compositech manufactures and stocks filters and replacement parts for a range of vacuum filters including drum filters, disc filters, belt press filters, and horizontal belt filters. We continually work to design performance optimizing products for use in the Pulp and Paper Industry and we provide critical disc saveall components such as sectors and wear plates.

Compositech fabricates and stocks sectors for **Dorr-Oliver®** disc filters. We make both the regular sectors and the tapered corrugated sectors. We also stock basic sector parts including radial rods, gaskets, clamps, and filter media covers.

Most Compositech sectors are made of stainless steel. We have recently added a line of sectors manufactured of engineering grade resins. We can produce sectors for **Dorr-Oliver®** filters from either material and we finish the sectors with chemical resistant gaskets designed to eliminate deterioration and vacuum leaks between the sector and centershaft.

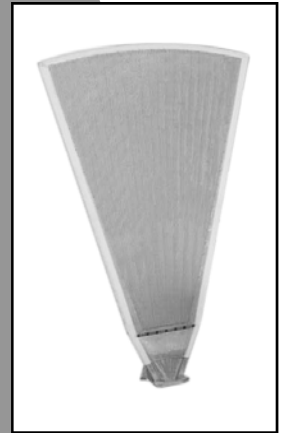

Our radial rods, sector clamps, and

bag clamps are all made of stainless steel. Our sector covers are fabricated out of materials including stainless steel, Kynar, or polypropylene with sonic-weld or zipper closures.

In addition to the sectors and sector parts we manufacture, our service group provides complete **Dorr-Oliver®** sector rebuilds. We provide in-plant sector recover services for large scale recovering generally as part of a PM schedule. Alternatively, customers who have spare sectors to rotate into the filter generally contact us to arrange shipping of used sectors for recovering at our facility. We strip, sandblast, pressure wash, inspect, repair, recover and return your sectors machine-ready!

We manufacture Compositech replacement parts for Dorr-Oliver®, Beloit-Jones™, IMPCO™, Celleco™, Andritz, Eimco®, Komline and most other brands of filtration equipment. Our spare parts are manufactured by and warranted by Compositech and they meet or exceed the quality and materials of OEM Components.

Compositech is not an authorized replacement parts or service supplier for GL&V®, Beloit-Jones™, IMPCO™, Celleco™, Eimco®, or Dorr-Oliver® brands of process equipment or parts. Compositech is not associated with GL&V USA Inc. or with FLSmidth A/S or their affiliated entities.
