

Dorr-Oliver® Vacuum Filter Replacement Parts

Manufactured by Compositech

Compositech has a 17 year history of inspecting and maintaining vacuum filters with replacement parts we design and manufacture. Our goal is to continually develop improved products which serve to optimize filter performance for each of our vacuum filtration customers. We make replacement parts for drum filters, disc filters, belt press filters, and horizontal belt filters.

Our technicians regularly inspect **Dorr-Oliver®** filters to troubleshoot filtration problems including:

- Inadequate Vacuum
- High Operating Level and Speed
- High Filtrate Solids
- Difficult Cake Release

Upon identifying effective solutions to your filtration issues, we can either ship machine-ready parts for installation by your own crew or Compositech's service group is available for installations and filter overhauls.

The initial step for all Compositech filter rebuilds is disassembling and cleaning the filter components. Our welders make needed repairs and problem parts are machined. For parts which cannot be

repaired, we provide replacements made to manufacturer specifications. We stock a variety of spare parts for **Dorr-Oliver®** filters including wear plates, bearings, agitators, worms, motors, drives, drainage grids, sectors, scrapers, and valves.

Upon completion of all necessary repairs and replacements, we reassemble the filtration unit. For assembly, Compositech installs new bearings, spacers, shims, worms, seals, gaskets, multiflex connectors, and vacuum gauges as needed.

Compositech strives to improve production capacity, minimize the potential for non-scheduled filter shutdowns, and reduce required maintenance for our customers. Please contact us for solutions to all your filtration issues!

We supply spare parts for Andritz, Dorr-Oliver®, Beloit-Jones™, Eimco®, Celleco™, IMPCO™, Komline-Sanderson and most other brands of filtration equipment. Our spare parts are manufactured by and warranted by Compositech and they meet or exceed the materials of OEM components.

Compositech is not an authorized replacement parts or service supplier for GL&V®, Beloit-Jones™, Eimco®, Celleco™, IMPCO™, or Dorr-Oliver® brands of process equipment or parts. Compositech is not associated with GL&V USA Inc. or with FLSmidth A/S or their affiliated entities.
